I have to put a note here, please don't spam this in peoples face. Just read it to the end and dm me if something doesn't make sense so I can write on here and clarify it.

Warning, document does contain r34 (porn) and heavy topics.

You're either going to read all of this, or you won't. But I won't be catering to cutting things short in this document.

For many years now many of you know the person as Icylawnmowers / VentaHybrid / Roland depicted as a groomer, CP artist, pedophile and general weirdo. In this document I am going to go over as much as I can and address where many of these allegations come from or why they're an issue and why these things haven't been properly handled for years.

The most prominent and only drama that's managed to resurface over and over is between me and a girl named Puffy. First we're going to go over the narrative everyone knows, including what I actually lived by for years.

This was at the height of the Decem Reges, Icylawnmowers head of Myths Of Roblox, founder of the Decem Reges, and various other myth related groups is accused of sending r34 of his own character to an 11 year old girl named Puffy.

We will return to this in a later page ^

This narrative then was twisted by some well known people (Jovile and Votaly) into Icylawnmowers trades CP. BOM caught wind of this and quickly jumped in, however later on during talks with LadySarah it was revealed that such had never happened. Infact here are the dms that directly address it (OLD AND CURRENT DAY ONES).

At this point BOM had already thrown me on the blacklist to which I was retaliating very nasty. I got incredibly aggressive with blacklist moderators.

Because I was thrown onto the blacklist after proving I didn't have CP anyways, people would just blindly follow those blacklists.

now there's an issue Icy wants to talk directly to you.

since its on every blacklist
and again i dont htink u should talk to em

“Everyone knows about it though”

Yeah but only the narrative you guys were fed.

Many of you have seen the screenshots (real of fake, doesn’t matter) of “what happened” with the idea I “groomed some 11 year old instead of blocking her” which isn’t what happened.

My side of the story (at least, what I was gaslit into living)

Originally as publicly stated I was told by Puffy she was 11 supposedly but only after everything had happened. The truth is, **Puffy and I were both 16 and having an affair.**

Wild right? I thought so too when I actually got ahold of the original dm.

What I think happened with me was when this happened, I didn’t need people to know I had an affair with one of my Devs girlfriends as it’d put bad publicity on me and her so instead I made it

up as we went along. This was a horrible decision because I fucking suck at lying and the whole situation got way more twisted up than it was supposed to be.

When she supposedly was 11, I freaked the fuck out and made some bullshit story she wanted e-sex (which isn't a lie) and i said no and shot r34 at her. To be totally frank this lie sucked ass and after so many years of running a false story that created a enormous lie I actually started believing it.

I actually gaslit myself into believing the shit story i spewed.

This whole situation had tore apart groups, friends. It was fueled by people who simply didn't like me or my work and used this "you're a pedo" as an excuse to come after me and make things worse. Everyone had been pitted against eachother. I fought, my friends fought, we fought eachother, people got banned, lives ruined and people hurting themselves. Several suicide attempts from not just other people being involved but myself because of the stress. The stress is what I believe made me genuinely forget what the real story of all this was.

Now yes, you can all say the stress is "an excuse" but to be honest it was really horrible at the time. Not many of you know, but home was actually even worse, so for me the myth community was less horrible which should say something. I was fighting on all fronts, (home, physcially, mentally, and that fucking community) which did serious damage to my developing brain. It doesn't help I was drinking through a lot of this to "ale the stress". It didn't work, don't drink unless it's casually and don't over do it because it genuinely isn't 'all that'.

Now lets fast forward a few years to some recent things, as many of you (or not) know, I did run off into the sunset with a really cool blue guy and in that time we got to know eachother we got very very close. He was the only person at this point to know the real story and fought (and won) several people on the subject. I would disappear from the myth community during all of this because I was busy in the sunset, however after some tragic events I was left alone by myself because guess what? All my friends were gone because of the original drama, which for some reason was still being pushed 2-3 years after it happened.

At this point I'd remeet a guy who'd become known as Hyper. I informed hyper of all the drama months prior to bootcamp (daycare lmao). When I got back some drama happened and he would go out of his way to push the narrative that not only was a some pedophile, a groomer, but had groomed my buddy.

A lot of horrible things were said because he genuinely thought I was a pedophile. Things like, "You should go kill yourself so you and (buddy) can fuck eachother in hell". This would make it out as if I diddled my best friend, and he only said those things just to piss me off.

Here is how old this “11 year old minor” and I was.

This is the user for YOUR proof.

I’ve gotten a lot of death threats and such through time.

Something new that’s being passed around (as of recent 8/8/2025) is that I’m on a Sex offender registry. This information was wildly passed around with no proof since, I’m not on one?? I have no idea where this information started however but here’s it being brought up \/\/\/

Hello! I saw that someone was telling you that icy was falsely banned from Tmu!
This is false as he is literally on a sex offender registry!

thats why I asked kiceba if it was true
I didnt wanna point fingers
thats why I asked kiceba if it was true
Oh he told one of the staff to explain because he was tired of explaining it!

I personally wanna see this list because !Infinity! (Puffy’s boyfriend??) actually went out of his way recently to false flag my instagram account for pedophila/exploitation and they actually do put you on a list so I really want to see this list. This is really illegal btw because it’s defermation :)

Anyways here’s the meat of the story you all have been waiting for. Puffy, the supposed Minor/11 year old/groomed was actually in an affair relationship with me. The next page will be full of some really crazy shit so viewer discretion is advised. (Also TMU Staff is spreading the above) Proof here.

so don't even get excited

One person in particular who’s getting a fuck ton of backlash and can’t even say anything.

I glossed over it because I didn’t want to mention him by name but ykw I think people deserve to know he’s getting absolutely shit on and he literally didn’t do anything bad.

So if you know, there was someone named Hyperphysical. He was mine and Junorisms friend, however they had a fallout and ofc after his death I clung onto Hyper because I was greiving. Hyper would use the opportunity to tell his Delirium/Hysteria fandom that I was “Talking to the ghost of junorism and fucking him” (Necrophilia).

I don’t have the screenshots but a lot of people saw how Hyper dragged him through the mud because I was close with him. I just want everyone to know Hyper is a fucking bitch, a nazi, and a horrible person for bringing a fuckton of people to clown on a literal angel, fuck you guys.

Ykw I’m gonna fucking ramble a little, do you have any idea how many times I’ve been hacked and doxed? All the people against me have literally tried contacting the military and getting me arrested for something that wasn’t real.

This community fucking sucks.I will be going balllistic and I am going to fucking explode on people. I should claim fucking disability with how debilitating this has been to me and how horrifically this affected my mental.

As I finish writing this, I have to say that the myth community is the most unintelligent fucking dipshits i have ever lived with given I’m hitting nearly 11 years

of developing games, and 9-10 years of myth community related stuff.

Now there is one last issue i need to bring up. I have been funding tmu heavily for months and even bought the myth containment prison for JOINT use between me and Kiceba. He took the group from me because “I was a pedophile”. I have since shown him all this. He has made up excuses and i want my group back, originally i wasn’t going to include that TMU was giving me issues but seeing someone from their staff is actively lying and saying im on a sex offender registry, and refused to give me screenshots of “proof” on anything said about me. I could fucking care less.

I do apologize for accidentally gaslighting myself into believing another story given it made more issues that didn’t exist. However the absolute negligence of everyone else who has fake proof from a salty bitch who got mad I exposed her cheating….. Crazy. Anyways yeah. :) I might update this doc.

I WILL BE INCLUDING MORE INFORMATION ON OTHER PEOPLE IF THEY DECIDE THEY WANNA FUCKING RETALIATE AGAINST ME BECAUSE I WAS RIGHT AND

THEY WERE WRONG AND IM SHOWING EVERYONE HOW WRONG THEY WERE

I don’t think you guys understand how this escalated from roblox drama to being legitimate felonies and defamation just because someone casually didn’t like me anymore.

There are a lot of people I could call out and go after but boss, frankly I’m tired.
